By Susan Anderson, General Manager

I invite you and your friends to join us this month in celebration. KPFK is devoting two special days in June to some of our best programming.

June 1st, two days after Memorial Day, we will be airing extraordinary radio programs on the issue of war and peace. You will hear Martin Luther King, Jr., I.F. Stone, John F. Kennedy, Ron Dellums, George McGovern, Diane Ladd, Elizabeth Farnsworth and many more voices discussing how and why the United States must achieve peaceful, non-belligerent existence.

Also, the last day of the month, June 30th, we will devote to Gay Day. And we expect this to be especially exciting and informative because we will be celebrating the 10th anniversary of KPFK's unique and essential broadcasting on gay and lesbian power, politics, life, and issues. And we will continue to provide a regular outlet for discussion and expression of gay and lesbian concerns.

During these specials we will be asking listeners to commit themselves to supporting KPFK. Will you, who have already joined us, help us gain that commitment? Will you call your friends and neighbors who have not yet subscribed and tell them to call us at 818-985-2711 and pledge their support? Our programs on June 1st and June 30th are some of our best arguments for joining KPFK.

## Highlights

### 2½ Hour Panel on Home Water Purifiers

Water, Water, Everywhere, But Much of It Isn't Fit To Drink! It is contaminated with a multitude of industrial and agricultural chemicals—pesticides, arsenic, mercury, nitrate, selenium, chromium, asbestos, lead, cadmium, heavy metals and radioactive compounds. These have been found to cause cancer, birth defects and genetic damage.

Water is our most precious resource. We cannot survive without it, and since our government has failed to protect our water, consumers must protect themselves! Bottled water is not the answer. The answer lies in owning your own home water purifier. But which purifier is best? Which one will remove the many contaminants? And which purifiers are affordable?

KPFK has invited a panel of home-water purifier purveyors who market steam distillation, reverse osmosis, deionization, aeration, activated carbon filters, solar, etc. After a short presentation, there will be a Round Table discussion among participating panelists, then listeners will have an opportunity to phone in. This Special 2½ hour panel on Home Water Purifiers — ON MONDAY, JUNE 24th, from 3:30 to 6 P.M. Hosted by Consumer Awareness' Ida Honorof.

### A Celebration of 10 Years of Gay and Lesbian Programming With IMRU

On Sunday, June 30th, IMRU/Overnight Productions presents another exciting 15 hours of programming dealing with the Gay and Lesbian community. The day will try to cover the cultural diversity of our community with words, music, poetry, and history.

IMRU will also be celebrating its 10th year on KPFK with a presentation of the best of IMRU — the voices, music, and events that have made IMRU the unique radio experience that it is.

So please join us for the greatest lesbian/gay day we've ever had. We can't do it without you.

### On June 15th KPFK Offers You A Special Way To Celebrate Father's Day.
